## Quality. Ontario. Eggs.

**It's what we know. It's all we do.**

Here's how we do it.

### It all began in 1934 in Ridgetown, Ontario

Lyle and Ina Gray established an egg grading station in the very competitive Southwestern Ontario egg market. By 1969, they had eliminated the competition and established L. H. Gray & Son as the one & only egg grading station in Ridgetown. In 1970, Ina Gray created the "Gray Ridge Eggs Farms" brand: a combination of "Gray" – our family name, and "Ridge" – a nod to our Ridgetown, Ontario roots.

Today, Bill Gray proudly carries on the family tradition. Under his leadership, Gray Ridge Eggs, Inc. has grown to become one of the principal players in the Ontario farm-to-table egg market, supplying bottled eggs to thousands of grocery stores and restaurants under the Gray Ridge Egg Farms, GoldEgg and Conestoga Farms brands.

From Day 1, our mission has been to provide Ontario families with quality eggs. And from Day 1, our partnership with Ontario egg farmers has been vital to fulfilling this mission. The egg farmers we work with are hand-picked by Gray Ridge because of their passion for egg farming, their dedication to their hens, and their commitment to producing only the highest quality eggs that we put in bottles.
